Frelinghuysen Township School District Mission Statement

Frelinghuysen Township School District is a small and caring community. Its mission is:

- To provide all students a superior individualized education
- To create strategic partnerships with parents and the community to meet students' needs
- To provide a compassionate, safe and supportive environment
- To support innovative practices by effectively leveraging technology
- To develop confident students who will be productive, contributing members of a constantly changing global society

Curricular Overview

The Spanish Curriculum was created for Frelinghuysen School District using resources from past Spanish curriculum, the New Jersey Student Learning Standards and an analysis of the needs of our students. Previous curriculum was updated, adapted and aligned to reflect the NJSLs, technology integration and the 21st century standards.

The curriculum is based on a philosophy which emphasizes using goals to drive the learning plan. This ensures that instruction is focused and driven by specific learning outcomes. Units are organized into themes and goals, with pacing guides and suggested resources for teachers to use to guide daily instruction. Differentiation is included to reach all learners through specific activities and interdisciplinary connections are highlighted to produce a comprehensive curriculum.

Frelinghuysen Township School seeks to provide our students with a well-rounded curriculum supported by best practices in education to guide our students throughout their entire educational journey. This curriculum was created with the intention of keeping with our mission of developing productive students through a superior, individualized education that effectively leverages technology in a safe and supportive school community.
